PROFESSIONAL PROFILE

B.Com student and aspiring Frontend Web Developer with practical experience building interactive web projects using React, JavaScript, HTML and CSS. Focused on crafting responsive interfaces, improving usability, and expanding technical capabilities through hands-on development.

TECHNICAL SKILLS

Frontend	HTML5 · CSS3 · JavaScript · React · Bootstrap · Responsive Design
Development Tools	Git · GitHub · Vite
Currently Developing	Node.js · SQL/MySQL · MongoDB
Creative Tools	Canva · Pinterest · Basic Content Creation

SELECTED PROJECTS

Mangodi Wale — Food Business Website

Built a React-based food-business website concept for Mangodi, Banana Chips and Namkeen, featuring product information, weight/price options and a shopping-cart experience.

Live Demo · Source Code

Portfolio Website

Developed a responsive personal portfolio featuring About, Skills, Projects and Contact sections, a working contact form, dark/light mode and animations.

Live Demo · Source Code

MindSpark — Memory Game

Created an interactive memory game with card-flip interactions, match detection, score/move tracking, completion feedback and restart functionality.

Live Demo · GitHub Profile

StudySpark — Study Planner

Built a study planner for creating, completing and deleting tasks, organising subjects, setting deadlines or priorities, viewing progress, and retaining tasks after refresh.
